

ABOUT EGCFE

The EGCFE is one of five Expert Groups that were established by, and report directly to, the Energy Working Group (EWG). The EWG is one of ten such groups that implement the Action Agenda of the Asia Pacific Economic Cooperation (APEC).

The EGCFE is presently chaired by the United States, and has three main program elements: clean fossil energy policy; clean fossil energy technology; and oil and gas. The EGCFE meets twice each year. An EGCFE Business Meeting is held in conjunction with the annual technical seminar between September and November each year. The location changes among APEC member economies, and is usually held in the same city as the annual technical seminar. This short meeting reviews results of the seminar, and discusses a range of short- and longer-term planning issues

COMPLETED PROJECTS

APEC Unconventional Gas Census Expert Workshop (EWG 16 2011)

APEC Unconventional Gas Census: Evaluating the Potential for Unconventional Gas Resources to Increase Gas Production and Contribute to Reduced CO2 Emissions JAN 2013

[VIEW MORE »](#)

REQUEST FOR PROPOSAL

Water-Energy Nexus: Coal-Based Power Generation and Conversion ? Saving Water (EWG 08/2014A)

CCS Capacity Building in Mexico (EWG 17 2013) - awarded to Global CCS Institute

APEC Expert Workshops on CCUS-EOR (EWG 15 2013A) - awarded to Development Technologies International

Next Clean Fossil Energy Technical and Policy Seminar is to be held in Kuala Lumpur, Malaysia (Date to be announced)

REPRESENTATIVES

The APEC Expert Group on Clean Fossil Energy is comprised of 21 member economies, geographically located in the two continents around the Pacific ocean. The complete list of contacts for these economies is shown below.

EGCFE PROJECT REPORTS

EGCFE has completed a number of project reports related to more efficient clean fossil energy technologies. This page provides a complete listing of the results and related documents from such projects. Please also visit the Publications Page for other published documents and the Summary Records page for the summary of meetings. If you have further questions about this page, please contact the International Group Leader.

EGCFE project reports are available to the public. This page provides a listing of the publications. The list is being updated upon the publication releases. Please visit the page periodically for timely information. Visitors who are interested in obtaining our past publications not available on line, please contact the [International Group Leader](#) for detail.

PROJECT	DATE	DOCUMENTS
APEC Unconventional Gas Census Expert Workshop (EWG 16 2011)	March 1, 2014	Report
APEC Unconventional Natural Gas Census (EWG 01/2013)	January 1, 2013	Final Report
Phasing Out Fossil Fuel Subsidies to Reduce Waste and Limit CO2 Emissions while Protecting the Poor (EWG 11/2010)	September 1, 2012	Final Report
Increasing the Knowledge and Awareness of Carbon Capture and Storage: Capacity-Building in the APEC Region (Phase V) APEC EWG 05/2010A	September 1, 2012	Reports
Permitting Issues Related to Carbon Capture and Storage for Coal-Based Power Plant Projects in Developing APEC Economies (EWG 04/2010)	September 1, 2012	Report
Increasing the Knowledge and Awareness of Carbon Capture and Storage Capacity Building in the APEC Region (Phase V)	May 1, 2011	RFP
Assessment of the Capture and Storage Potential of CO2 Coproduced with Natural Gas in South-East Asia (EWG 06/2008A)	May 1, 2010	Report
Planning and Cost Assessment Guidelines for Making New Coal-Fired Power Generation Plants in Developing APEC Economies CO2 Capture Ready (EWG 01/2008A)	March 1, 2010	Report
Increasing the Knowledge and Awareness of Carbon Capture and Storage: Capacity-Building in the APEC Region (Phase IV)	June 1, 2008	Report
Best Practices in Environmental Monitoring for Coal-Fired Power Plants: Lessons for Developing Asian APEC Economies	November 1, 2008	Report
Technology Status and Project Development Risks of Advanced Coal Power Generation Technologies in APEC Developing Economies	October 1, 2008	Report
Lessons Learned in Upgrading and Refurbishing Older Coal-Fired Power Plants — A Best Practices Guide for Developing APEC Economies	October 1, 2008	Report
How Can Environmental Regulations Promote Clean Coal Technology Adoption in APEC Developing Economies?	November 1, 2007	Report RFP
Potential for Growth of Natural Gas as a Clean Energy Source in APEC Developing Economies	June 28, 1905	Report
Costs and Effectiveness of Upgrading and Refurbishing Older Coal-Fired Power Plants in Developing APEC Economies	June 1, 2005	Report
CO2 Storage Prospectivity of Selected Sedimentary Basins in the Region of China and South East Asia	June 1, 2005	Report
APEC Clean Transportation Fuels Supply Security Study (EWG02/2001T) Final Report	February 1, 2004	Report
CO2 Reduction Options in the APEC Region (II)	December 1, 2003	Report
CO2 Reduction Options in the APEC Region (I)	2000-2001	Report
The Role of Petroleum Based and Alternative Transport Fuels in Reducing Emissions in the APEC Region (I)	December 2000 (Completion)	Report
Coal and Natural Gas Competition in APEC Economies	August 1, 1999	Report
Study on Atmospheric Emissions Regulations in APEC Economies and their Compliance at Coal-Fired Plants	January 1, 1997	Report
